

About Us

PYP (TK-5th grade) and MYP* (6th-8th grade) students at Arroyo are encouraged to question and explore to gain new understanding. Students continue their learning through further questioning and research. A unique aspect of our approach is that our students' learning does not end with the content but with meaningful action in the school, community, and world.

When students embody the IB Learner Profile Attributes, they show that they are international minded citizens who see the commonality of all humans.

IB World Schools share a common philosophy—a commitment to improve the teaching and learning of a diverse and inclusive community of students by delivering challenging, high quality programmes of international education that share a powerful vision.

Mission Statement

Through reflection and inquiry, we strive to be an action-driven community of knowledgeable and caring world-changers.
