2022-2023 School Accountability Report Card
(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview	By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC. - For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/. - For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/. - For additional information about the school, parents/guardians and community members should contact the school principal or the district office.
DataQuest	DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).
California School Dashboard	The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.
Internet Access	Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

The Online Academy provides a safe, clean environment for learning through proper facilities maintenance and campus supervision. At the Hardy Center, the Online Academy has four designated classrooms where teachers are provided individual teaching pods to conduct their instruction. There is a staff lounge, workroom, and conference room that are shared with the other departments housed at the Hardy Center. The school facility offers fully functioning lighting, heating and cooling systems, and noise negation. There are 4 restrooms for staff use, along with a restroom in the main office for visitors. There are tables between the main office and classrooms for staff to take breaks, meet with colleagues, or conference in-person with parents. Wireless and/or network internet access is available in all buildings throughout the school. There are no current or planned facility improvements.

Administrators meet with the head custodian to discuss any maintenance, grounds, and/or cleaning issues. A routine cleaning schedule is in place. The head custodian maintains cleanliness on the grounds daily. At night, classrooms have trash emptied daily and are vacuumed every other day. Deep cleaning occurs during extended breaks and the summer months. The district takes great efforts to ensure that all schools are clean, safe and functional. Site and district maintenance and grounds staffs make sure that the work necessary to keep the school in good repair and aesthetically pleasing are completed in a timely manner . A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. The floors, walls, and plumbing system are all in good shape.

The LEA takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the district's Operations Department conducts an annual in-depth evaluation of each school to determine the condition of the facilities and identify situations that need maintenance, repair or an upgrade. The district uses a facility survey instrument developed by the State of California Office of Public School Construction to assist with the data gathering during the inspections. All findings are shared with the principal and work orders for needed repairs are created at that time. The results of this survey are available at the school office or the district office.

During the most recent Facility Conditions Evaluation conducted on 5/3/2022, facilities and buildings, rooms, and grounds were found to be in Good condition. The Facility Inspection Tool was used throughout a walk-through of our school. There were no extreme deficiencies found. The report on this inspection was forwarded to the Superintendent of Schools.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments
(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement	State Priority: Parental Involvement
	The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

The Online Academy complies with state and district requirements to ensure parental involvement is a main priority. Meetings are held for specific groups (GATE, English Learners, and Students with Disabilities) 4 times per year. During these meetings parents are offered relevant information related to special populations and are given an opportunity to ask questions. At the beginning of the year parents were sent a survey asking them for input on various items including the topics they would like to see presented at parent meetings. This information is used to develop the agenda for parent meetings and shared with parents 1-2 weeks prior to meetings. Reminders are sent through our communication app, ParentSquare, one week prior to the meeting and the day before the meeting. The flyers with all of the meeting dates for the school year are posted in the front office and on the site website for parents to access at any time. General Coffee with the Principal meetings are held every other month to discuss site specific information and allow parents time to share concerns or suggestions about events at our school. For more information parents are welcome to contact the front office at 909-930-6740.

School Site Council meetings are held in person and parents and staff were selected through a formal election process. The SSC is responsible for reviewing school data and determining how to spend school funds. Together the group reviews programs in place and monitors their progress for effectiveness. The SSC reviews the SPSA and Parent Compact annually to ensure that all students are given an equitable education and resources are distributed based on need.

C. Engagement	State Priority: Pupil Engagement

2023-24 School Safety Plan

The Online Academy worked with the following educational partners to create a Comprehensive School Safety Plan: Parents in a public meeting, School Site Council, and staff. The Plan was approved by our School Site Council and forwarded to the Ontario Police Department for review.

The School Safety Plan was last updated in December of 2023. It was reviewed by staff in August of 2023. The School Safety Plan includes provisions for establishing a secure campus, including the requirement of visitor check-in through the main office (B-1), monitoring of the campus perimeter, common release procedures for all teachers, continuous monitoring for safety hazards throughout the campus. There is also a detailed listing of emergency procedures for fire, earthquake, and potential and actual campus intrusions and staff and students are trained at the beginning of the year, in addition to drills. Emergency provisions of water and sanitary kits and limited food are maintained in the staff kitchen (breakroom) and additional supplies of food, boxed water, batteries, and other important supplies are maintained in storage. Online Academy students work independently off site through Internet-based programs and are not on campus the majority of the school day. During their scheduled visits to
campus, they are working directly with teachers or other site staff and are supervised accordingly.

The school safety plan is a public document and will be readily available for inspection at the school site and at the district office.
