

Here is a snapshot of a classroom during an IB unit called "Sharing the Planet". Students experienced a whole day of inquiry into National Parks. They experienced camping activities such as nature walks, reading outside, s'mores mathematics, video conferencing and guest speakers.

Arroyo IB students take action to better our world. One example is the Jogathon where we raised over \$4,000 to help a school in Kenya.

Our School's Mission

Through reflection and inquiry, we strive to be an action-driven community of knowledgeable and caring **world-changers**.

Students at Arroyo are encouraged to question and explore to gain new understanding. Students continue their learning through further questioning and research. A unique aspect of our approach is that our students' learning does not end with the content but with meaningful action in the school, community, and world. When students embody the IB Learner Profile Attributes, they show that they are International Minded citizens who see the commonality of all humans.
